1	十銓科技股 份有限公司	Team Group Inc.	http://www.t eamgroupin c.com/en/	Team Group Inc. is a manufacturer of computer products and consumer electronics, established in Taipei, Taiwan in 1997. We manufacture and distribute high quality Memory modules, Memory cards, USB disk, SSD, Industrial Applications and Mobile Applications. Team Group is recognized as one of the leading memory products and consumer electronics manufacturers in the industry. We cover most business regions in the world. Team provides the highest quality products to customers in volume with competitive prices and the best possible after services. Through many years of the close and direct relationships with the leading manufacturers and OEMs, we are able to provide various products even during the shortage and allocation periods. As we continue to grow, we start to develop mobile application devices in 2012 and we will continue committing to support our customers with superior products, first class service and excellent business growth.	T-FORCE	XCALIBUR 發 光電競記憶體	XCALIBUR RGB DDR4	XCALIBUR General Edition	Ultra-wide 120° angle lighting, Unique totem design
						幻彩極光固態硬 碟	DELTA RGB SSD	DELTA RGB SSD	·The largest RGB luminous area in the industry and the ratio is 5:3. ·Support synchronization with motherboard light effects ·It presents a magnificent mixing with water flowing light to maximize the variability of color.
2	友訊科技股 份有限公司	D-Link Corporation	www.dlink.c om.vn	D-Link is a global leader in connecting people, businesses, and cities with our computer networking solutions and technology. Our innovative products and services meet the needs of digital home consumers, small to medium sized businesses, enterprise environments, and service providers. D-Link implements and supports unified network solutions that integrate capabilities in switching, wireless, broadband, IP surveillance, and cloud-based network management. An award-winning designer, developer, and manufacturer for over 30 years, D-Link has grown from a group of friends in Taiwan into a global brand with over 2,000 employees in 60 countries.	D-Link		Whole Home Mesh Wi-Fi System	Covr-C1203	Introducing Covr, the seamless Wi-Fi solution that's the perfect fit for your modern home. It blankets every square inch of your home with high speed AC1200 Dual-Band Wi-Fi. With Covr, you enjoy Wi-Fi that's stable, consistent, and truly seamless.
							D-Fend AC2600 Wi-Fi Router	DIR-2680	Why buy a Wi-Fi router for your internet, and a separate firewall for security when you can do it all with the D-Fend router? Now you can enjoy high-speed, data-intensive activities like streaming HD video and online gaming without sacrificing your privacy and security.
							N300 4G/LTE WiFi Mobile Modem Router	DWR-932C(E1)	The DWR-932C 4G/LTE Mobile Router is a 4G LTE Cat4 high-speed broadband wireless WAN (WWAN) to Wi-Fi mobile hotspot. The DWR-932C uses a 4G Internet connection to give you an easy-to-set-up Wi-Fi network anywhere you need one. Instead of limiting your mobile Internet connection to a single device through a USB dongle, the DWR-932C allows you to create a Wi-Fi hotspot to share your connection with multiple Wi-Fi devices. The convenient size means you can share your connection anywhere; use it in a cafe to send e-mail while your friend reads the news, or at the airport so you and your coworkers can work while waiting for your plane.
3	光峰科技股 份有限公司	Everest Display Inc.	www.boxligh t-asia.com	Established in 2001, Everest display inc. is the mainly designed and produced the high-quality LCD projectors of factory.  Since 2016 in order to make interactive and mobile education can be used at the same time. Everest developed the finger touch device and cloud projection system bundle with projector to be the first cloud touch projector in the world which can provide the new milestone in the mobile e-learning education.	Boxlight	雲端觸控投影機	Cloud Touch Projector	ANW420STiA	Finger touch and cloud wireless projector combines one projector to offer future education demand.
						數位式無限擴音 系統	Digital Wireless Speaker System	CH-30W	Everest design as an interactive projector and wireless speaker system built in wireless receiver to create a unique projector with external speaker product.
4	艾法科技股 份有限公司	Aifa Technology Corp.	https://aifate chnology.co m	AIFA TECHNOLOGY is a leading design company of Taiwan specialized in the design and manufacture of various products. For more than twenty five years, we have been entrusted with the production for various well-known brands and are highly acclaimed. AIFA had made many new wifi and IOT related products, We have provided our customers with professional IC design, firmware design, massive code database support, and flexible customized services.	i-Ctrl	智慧遠端家電控 制盒	Wi-Fi Remote Control Box	i-Ctrl	i-Ctrl integrates home appliances through the Wi-Fi link and then controls a wide range of home appliances based on the superior AIFA remote technology.
5	快樂島股份 有限公司	Happy Island Tech Co., Ltd.	https://www. happyisland. com.tw/en/ musicshell- intro-en/	Happy Island is a technology company that focuses on underwater sports accessories. Its products include Becker and other swimming accessories. Through innovative and high-tech elements, Happy Island provides fun and functional swimming accessories. These products bring surprises and enjoyments to water sports enthusiasts.	MUSIC SHELL	防水音樂MP3	Waterproof MP3 Player	BEKER	The waterproof music player MUSIC SHELL using the innovative bone conduction technology is a perfect companion for jogging, cycling or swimming without the need of an earphone.

						KIDS FIRST CODING & ROBOTICS	KIDS FIRST CODING ROBOTICS	#7442	INTRODUCTION TO CODING AND ROBOTICS FOR GRADES K-2 Meet Sammy. This cute little peanut butter and jelly sandwich is actually a robot that teaches coding principles and skills to children in grades K-2. You don't need a tablet, smartphone, or computer to program this robot; programs are created by simply laying down a sequence of physical code cards. As the robot drives over the code cards, an optical identification sensor on the bottom of the robot reads the code cards one by one and loads the program. Next, place the robot on a grid made of map cards, and the robot runs the program. You can program the robot to move in different directions, activate its output gear, light up its LED, play sounds, and respond to different function cards. The integrated output gear makes it possible to build simple robotic creations with arms or other moving parts that respond according to the program's instructions.

21	廣隆光電科技股份有限公司	Kung Long Batteries Industrial Co., Ltd.	http://www.kunglong.com/en	Established in 1990, Kung Long are the only listed specialist lead-acid battery manufacturer in Taiwan. In addition to our first factory in Taiwan, we have two more modern production facilities in Vietnam. With a total developed area of 252,000m2, each has passed ISO9001, TL9000, ISO14001, ISO17025, and OHSAS18001 certification. Through precision manufacturing and using our quality management system, all sealed batteries distributed in our own brand "LONG" have passed UL accreditation. In order to cope with the high-quality requirements of the EU security monitoring market, we have also passed VdS certification of Germany. Our products are favored and recognized by leading global enterprises at home and abroad for their quality, high cost-performance ratio, and reliability. Our products are offered for a wide range of applications: multipurpose, cycling high-power, electric car, deep-cycle, renewable energy, and solar energy.	LONG	雲端機房, 通信基站, 儲能站純膠體電池	Pure gel Battery	PLG500A	Dùng cho các hệ thống viễn thông, các hệ thống dự trữ năng lượng công suất lớn, các trạm mạng mobile, cung cấp kết nối giữa mạng của thiết bị đầu cuối với điện thoại của người sử dụng; gồm cả thiết bị thu phát vô tuyến và ăng ten. Nhà mạng viễn thông cần xem xét các yếu tố địa hình và vị trí, lên kế hoạch và xây dựng các trạm phát sóng để tăng cường phạm vi bao phủ và cung cấp chất lượng viễn thông tốt nhất cho khách hàng. Do đó các trạm phát sóng cần có nguồn điện dự trữ để đảm bảo sự liên tục và tin cậy của chất lượng phát sóng.  用於電信系統·大型儲能系統系統·採用蜂巢式網路之電信設備基地台·提供後端網路與使用者手機間之溝通管道; 包含無線電收發機及天線等設備。通訊業者需視地形及地貌等因素·規劃及建置基地台以增強涵蓋範圍並提供用戶最佳的通訊品質。因此電信基地台需以備援電力來維繫通訊品質之順暢與信賴性。
